

## Measuring our Performance

In 2006, we released our 2006/2010 Strategic Direction. In this we said we would track our progress toward the intermediate outcomes we were seeking:

- Non-competitive club members maintain their fitness & skill levels
- Club members qualify for Wellington Championships
- Club members appear in the Top 10 at age group and open national level by monitoring the following indicators over the 5 year period to 2010.
